Dear Mr Green

I refer to my telephone conversation yesterday with Mr Cullen and confirm an order for a further 50,000 pieces of fifty pence coins (£25,000). As I explained there has been an unprecedented demand for this denomination over the past six weeks and it will be necessary to increase my limited stock fairly swiftly. I would appreciate your co-operation.

Can I assume that the unit price will be as quoted in your letter of the 6th February namely £70 per thousand pieces.

Yours sincerely

Thank you for your letter dated 17 March 1987 about the consignment of one penny coins for the Educational Coin Company.

As I mentioned on the telephone, a Director of this company has now been to see us about arrangements for the supply of low value coins from other countries for whom we manufacture circulation coins. In anticipation that authority will be forthcoming from other issuing authorities, we have been asked to retain your six boxes of penny coins in stock for the time being, and to make a combined shipment when the coins are required to augment the company's stocks.

I trust that you have no objection to our complying with the company's request to retain coins in stock pending their further instructions.

Yours sincerely

Dear Mr Le Marquand,

CIRCULATION COINS

I am sorry for the delay in replying to your letter dated 24th June ordering further supplies of 10 and 50 pence coins. We thank you for this further order, and confirm that it has been entered into our production schedule.

Prices

Our prices for these coins, CIF St. Helier per thousand pieces, are as follows:-

<u>Denomination</u>	<u>Quantity</u>	<u>Price per 1,000 pieces</u>
		£
50 pence	30,000	75
10 pence	100,000	59

As you will see, these prices are slightly lower than previously charged, which is due to current lower prices for metal.

Master Tools

The above prices are exclusive of the cost of redating tools to 1986, for which there will be a separate charge of £575 per denomination. I confirm that the Machin portrait will continue to appear on the obverse in accordance with your instructions.

Delivery

We are arranging for the coins to be manufactured during August, which I understand meets your requirements.

Terms of Payment

Our prices assume that you will arrange payment within 28 days of receiving our invoice.

Yours sincerely,

Dear Mr Le Marquand

1986 PARISH SERIES COINS

I am writing with our quotation for coins for manufacture during 1986. Our manufacturing prices for these coins are as follows:

<u>Alloy</u>	<u>Standard</u>	<u>Weight (Gms)</u>	<u>Assumed Quantity of each design</u>	<u>Unit Price CIF Jersey</u>
				<u>£</u>
Nickel brass	Ordinary circulation	9.5	10,000	120 per 1000 pieces
925 Silver	Frosted Proof	11.68	2,000	5.75
Gold	Frosted Proof	19.65	100	23

These prices are based on assumed total production orders for each design, and are subject to review if there is any significant differences in quantity. The price for nickel brass ordinary coins is inclusive of metal, and prices for precious metal frosted proof coins are exclusive of bullion.

Bullion

We assume that the bullion content for gold coins will be provided in the form of surplus St Helier gold proofs, which will be made available to us when you confirm your order. The price for silver proofs assumes that bullion will be purchased when your order is confirmed. In order to avoid financing, we will telex the total value of bullion purchased, which will be payable within 48 hours by telegraphic transfer to the Royal Mint account at the Bank of England. The total cost of bullion will include a brokerage charge of one quarter per cent, which is standard on such transactions.

Packaging

Our prices assume packaging in acrylic capsules and outer packaging, suitable for delivery to Jersey.

Master Tools

The prices quoted above are exclusive of costs of preparing new master tools. On the assumption that the Machin portrait is retained for the obverse, there will be a single charge of £575 for redating obverse tools to 1986. The costs of new reverse tooling for each design will be £500 for each plaster model, plus a further £1200 for each set of master tools.

Delivery

We are now preparing master tools for St Peter and Grouville coins, and samples will be forwarded for your approval. Coins can then be delivered approximately one month from receipt of your order.

Terms of Payment

Prices assume that payment will be made for manufacturing charges within one month from receipt of invoice.

Validity

Our prices are firm for coins manufactured during 1986, except for any significant variations in metal prices prior to receiving your order.

Royal Mint Marketing

We confirm that the Royal Mint wishes to continue to sell these coins on your behalf. We propose that the arrangements are similar to those agreed for your Parish series coins sold during 1985, that is that we will pay you royalties on each coins sold of 12.5% for silver proofs and 10% for gold proofs.

We understand that you propose issuing your St Peter coins in July, and we would be grateful if you would kindly confirm that date on which you propose opening your subscription list and whether prices will be the same as for 1985. The Royal Mint would like to have an allocation of 50 gold proofs and 1,000 silver proofs and I would be grateful to know that this is acceptable. With reference to your letter dated 4th February, there was an order for one additional St Brelade coin in the pipeline, and we therefore have four remaining gold coins to be destroyed, after the sale to Mr Monins. We therefore require a further 46 pieces to cover the proposed order for St Peter gold coins for Royal Mint sale, which we would like to receive by the end of April.

We assume that you will wish to supply presentation cases for coins sold by the Royal Mint. For the St Peter issue we wish to purchase packaging for 50 gold coins and 725 silver coins.

We look forward to receiving your further instructions.

Yours sincerely

P J S Green

Dear Mr. Green,

Coin Bags

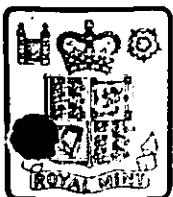

Thank you for your letter of the 3rd January, 1986 enclosing examples of the plastic coin bags used in the United Kingdom. I am sure you are aware that although quantities of our coins are issued to the local banks a fair percentage is counted, bagged and used within the department and therefore it is necessary to have the coins in bags that can be re-sealed and re-labelled easily.

It follows therefore that it would be beneficial to retain the existing procedure.

Yours sincerely,

Dear Mr Le Marquand

Coin Bags

You may like to know that in recent years all United Kingdom coin has been distributed to the commercial banks packed in plastic bags. The method of packaging was changed following exhaustive trials by clearing banks in the United Kingdom, whose experience with the new bags has been generally satisfactory.

We now have sufficient capacity to be able to offer this type of packaging to our other coinage customers, and I would be grateful to know whether we may in future pack your coins into plastic bags. Examples of the type which we would propose to use are enclosed for reference.

As you will see, the plastic bags are heat sealed, and they also have provision for lifting in the upper portion. United Kingdom coin is identified by having the denomination and the value of the contents stamped on the bag. This would be our recommended method for identifying your coins, though if you so wished, we could insert an identifying bag label within the upper portion of the bag.

We trust that you will feel able to adopt this new method of packaging your coins. However, cotton bags will continue to be available in case you would prefer to retain the present procedure.

Yours sincerely

P J S Green

Dear Mr. Green,

1985 Parish Series Coins

Thank you for your letter of the 29th March 1985 enclosing samples of the St. Clement and St. Lawrence £1 coins. They are approved and you have authority to proceed with the manufacture of 10,000 of each issue. This quantity was requested in my letter dated 12th February 1985. Delivery of the circulation coins in May and September would be acceptable.

With reference to the gold and silver proof issue, I can confirm that the prices for the St. Clement issue will be as follows:-

Gold £300.00 Dealer Discount £35.00
Silver £ 16.95 Dealer Discount £ 3.95

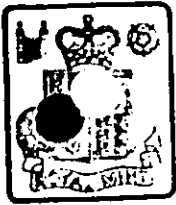

Your initial allocation of 25 gold proof and 800 silver proof is agreed and I shall be pleased to return the equivalent quantity of St. Helier surplus gold coins as soon as you request them. I shall also provide the equivalent number of gold coins for the local issue when the subscription list closes. I presume that you will purchase the silver bullion on the London market. Dependent on the final orders for the £2 silver Liberation coin, you may have a quantity of our silver in hand.

Mr. Monins advises me that you are in possession of the packaging to be used, a sample having been sent to you direct from the manufacturer.

May I refer to our telephone call yesterday morning advising me that the 1985 circulation coins are minted. You will recall I suggested you held them until the Liberation £2 coin was available and I am happy with this arrangement. My only concern is that the £2 coins should not be delayed. If you feel that these coins, which as you know are for schoolchildren, will reach me sooner if despatched in isolation, then kindly make the appropriate decision.

Yours sincerely,

F. H. LE MARQUAND

Dear Mr Le Marquand

1985 PARISH SERIES COINS

I am enclosing pre-production samples of your St Clement and St Lawrence coins for your approval. We trust that the samples are to your complete satisfaction, and that we may have your authority to proceed with the manufacture of your orders. Subject to receiving your instructions in good time, we now propose manufacturing the ordinary circulation standard St Clement designs in April, and those with the St Lawrence design in August.

We understand that your subscription list for the St Clement coins opens on 30 May, and we would be grateful if you would kindly confirm your issue prices. We hope to include the coins in the next edition of our Coin Club "Bulletin" and we would like to have samples of your new style packaging as soon as possible, in order that photographs of your coins in their final packaging may be featured. As was mentioned in my letter dated 8 February, the Royal Mint would like to have initial allocations of 800 silver proof and 25 gold proof St Clement coins. If these are agreed, we assume that you will wish to return the equivalent quantity of St Helier surplus gold coins, which would be valued at the original bullion price.

We look forward to receiving your further instructions.

Yours sincerely

Dear Mr Le Marquand

Thank you for your letter dated 1 February about current coinage matters.

Liberation Issue

I am sorry for the errors which crept into our teletext message of 29 January. Unfortunately, we could not contact you by telex at the time, and the teletext message was used as an alternative. As explained to Mr Monins, we are proposing a royalty of £4 on the silver proof £2 coins, and we estimate that we could sell up to 15,000 50 pence ordinary coins to dealers at face value.

We trust that the proposals in this message are favourably received. Your early decision on the method of marketing would be appreciated, as our marketing branch cannot plan their campaign pending your confirmation that you wish us to market the issue on your behalf.

We note that you require 50,000 pieces of the 50 pence coin, which we are planning to have available for despatch by the end of March. I confirm that the reverse design is being modified, as discussed between Mr Monins and Mr Elsasser. It was agreed that we would send you an impression of the master tools, to show the modification made to the flags, and I will be sending this on to you in the next few days.

Parish Series £1 Coins

I confirm that we are proceeding with toolwork for the St Clement and St Lawrence designs. These will retain the existing Machin effigy, with the date 1985. We will be sending you pre-production samples for approval shortly. We hope to have the circulation St Clement's coins available by end March, and have planned to do the St Lawrence design in August.

I understand that you intend to market the 1985 issues in the same way as was agreed for the St Saviour and St Brelade's issues. Your confirmation on this point would be appreciated, in order that we may proceed with production arrangements for coins for Royal Mint marketing, and also to arrange a suitable marketing spot. In this connection, we had explained to Mr Harris last year, that it takes 6 to 8 weeks to obtain precious metal blanks for striking gold and silver coins, and we therefore need to order blanks now, if you wish us to be striking St Clement coins during April. The Royal Mint usually borrows bullion for conversion to blanks. This facility is available to you, and you therefore have the option either of buying silver now to fix the bullion element of coins, or of borrowing the bullion initially, in which case, you would pay the bullion price ruling nearer the time the coins go on sale plus a small charge for financing.

If we work on the 1984 marketing arrangements, the Royal Mint would like to proceed with the manufacture of 800 silver proof St Clement coins. We would also wish to have an initial allocation of 25 gold proof St Clement coins. We would prefer to purchase our own bullion for gold coins which we market, though we will be happy to consider buying back surplus St Helier coins, if you so wish.

I understand that you are considering changing the packaging for the 1985 issues, and your early decision in this matter would be appreciated. We take it that you would wish to sell us packaging for coins which we sell, and we can confirm our order directly details of the packaging are known. However, at the present time, we do have a stock of the 1984 packaging available, and we wonder whether there would be any objection to using this for part of the St Clement issue.

Circulation Coins

We thank you for your order for coins from 1 pence to 10 pence inclusive. We are assuming that these coins will bear the existing designs, with the Machin effigy and date 1985, and I will let you have our quotation on this basis in the next few days.

This letter is intended to bring us fully up to date, but please let me know if anything has been omitted.

Yours sincerely

P J S Green

With reference to the 50p Liberation coin, you will recall that it was necessary to improve the recognition of the flags (Telex 9.1.85). Mr. Monins has advised me that he has agreed with your engraver, Mr. Elsasser that the matter has been resolved so presumably the preparation of the master tools is in hand.

I shall be discussing your Telemessage of the 28th January with the Treasurer on Tuesday next and will contact you as soon as possible after that date. In the meantime would you refer to your message and provide the answers to these two queries

I UNDERSTAND FROM MR LOTHERINGTON THAT YOU WILL BE HANDING OVER TO MR LE MARQUAND IN THE NEAR FUTURE. THERE HAVE ALSO BEEN SOME CHANGES HERE AND PETER GREEN WILL BE TAKING OVER THE JERSEY ACCOUNT FROM ME. IN VIEW OF THIS DOUBLE CHANGEOVER AND MY RECENT LONG ABSENCE FROM THE OFFICE I THOUGHT IT WOULD BE USEFUL TO SET DOWN MY UNDERSTANDING OF THE CURRENT SITUATION REGARDING JERSEY COINAGE.

TWO POUND LIBERATION COIN

OBVERSE: PHOTOGRAPHS OF THE NEW OBVERSE BEARING THE MAKLOUF EFFIGY OF HER MAJESTY THE QUEEN HAVE BEEN FORWARDED TO YOU BY MRS VERMAN ON THE 12TH AND 14TH OF DECEMBER 1984. THE PHOTOGRAPHS SHOW THE DATE ON THE OBVERSE BUT I HAVE SUGGESTED THAT FOR A CROWN PIECE YOU MAY NOT WISH TO HAVE THE DATE ON THE OBVERSE AS THIS WILL INVOLVE YOU IN A RE-DATING CHARGE EACH TIME YOU PRODUCE A COMMEMORATIVE CROWN. NORMALLY YOU INCORPORATE THE DATE AS PART OF THE REVERSE DESIGN AND HENCE THE OBVERSE DATE COULD BE CONSIDERED TO BE REDUNDANT.

HOWEVER, IF YOU REMOVE THE OBVERSE DATE, YOU WOULD NOT THEN BE UNIFORM WITH THE REST OF YOUR COINAGE.

PLEASE ADVISE WHETHER DESIGN IS ACCEPTED AND WHETHER OR NOT YOU WISH DATE ON OBVERSE OF THE TWO POUND CROWN.

REVERSE: WE HAVE AN APPROVED SKETCH AND A PLASTER MODEL IS CURRENTLY BEING PREPARED. WE HOPE TO FORWARD PHOTOGRAPHS OF THE MODEL WITHIN THE NEXT 7 TO 10 DAYS.

MARKETING PROPOSALS

THERE SEEMS TO BE SOME CONFUSION AS TO WHETHER THE COINS WILL BE MARKETING UNDER A SIMILAR SCHEME TO THE ONE POUND SERIES OR WHETHER YOU WISH SEPARATE PROPOSALS FROM US. IN ANY CASE PROPOSALS ARE BEING PREPARED AND WILL BE FORWARDED IN DUE COURSE.

50 PENCE COMMEMORATIVE COIN

OBVERSE: THIS ALSO WILL FEATURE THE MAKLOUF EFFIGY AND YOU HAVE RECEIVED PHOTOGRAPHS. PLEASE ADVISE WHETHER ACCEPTED.
