21st March, 1991

Dear Mr. Davies,

**Parish Emblem Series**

I am endeavouring to create a pictorial record of coins issued by the States of Jersey and I am without photographs of the first six coins in the Parish Emblem Series - St. Helier, St. Saviour, St. Brelade, St. Clement, St. Lawrence and St. Peter.

At the conclusion of the Series Mr. Green kindly sent me a copy of a booklet which featured all twelve coins. Maybe the negatives of the photographs included in that booklet are still available and, if this is so, I would be very pleased to have a single print of each of these six coins.

There is no urgency attached to this request and, obviously, I will be grateful if you are able to help me.

Yours sincerely,

F.H. LE MARQUAND

Dear Mr Le Marquand

COINS SOLD BY THE ROYAL MINT

I am enclosing our cheque for £9144.82, together with supporting royalty statements, in respect of coins sold by the Royal Mint up to the end of June. As you will see, this sum is made up as follows:

<u>Type</u>	<u>£</u>
Parish Series	3286.52
Uncirculated Sets	134.30
Royal Visit	5724.00
Total	9144.82

Sales of Royal Visit coins are broken down into retail and trade sales, in view of our undertaking to increase the rate of royalty in the event that bulk sales to dealers exceed 500.

A further statement will be provided by Geraint Chapman in 3 months time.

Yours sincerely

P J S Green

OFF SALE DATES

Thank you for your memo dated 19 June about products which you propose taking off sale at the end of September.

With regard to the Jersey St John gold and silver proof, we have explained to the customer that our normal policy is to withdraw coins after they have been on sale for 12 months. As these issues were not launched until November 1988, I should prefer that they remain on sale until the end of December 1989.

Dear Mr Green

## PARISH EMBLEM SERIES

I have received an encouraging number of orders for the albums in which all twelve coins can be housed and in many cases I am providing the acrylic capsules because the coins to be displayed are in nickel brass. Unfortunately my stock of capsules is limited and I would be pleased if you would kindly supply me with 360 of the crown size with the black reducing insert as used for the gold and silver versions.

Please submit an account in due course.

Yours sincerely

**JERSEY ST MARY:****THE FINAL ISSUE IN THIS POPULAR SERIES**

This highly acclaimed series of Proof f1 coins following the 12 parishes of Jersey is completed with the issue of the coin representing the parish of St Mary. The emblem of St Mary - St Marie d'Arsmoustier ("of the burnt monastery") dates back to AD 1042 and depicts a silver lily on a blue background.

Each coin was issued in accordance with the size of population of each of the parishes. The series began with the emblem representing the parish of St Helier, the thriving capital of Jersey, and was followed by St Saviour, St Brelade, St Clement, St Lawrence, St Peter, Grouville, St Martin, St Ouen, Trinity St John and finally St Mary.

**A Parish Boasting much natural beauty**

The parish of St Mary lies to the North West of the island, and although it is the second smallest parish and the least populated area in Jersey, it boasts much natural beauty. The deep wooded valley of Greve de Lecq runs from St Mary's church to the sea. Superb views are enjoyed by walkers who take the cliff path from Sorel through Le Mourier valley. In earlier times much of the land in the parish was given over to sheep rearing. Today St Mary concentrates on dairy and arable farming.

**Superb Proof designs in gold and silver**

Like the other coins in this popular series, the St Mary coin is offered in both 22 carat gold and sterling (.925) silver. Struck to the Royal Mint's highest Proof standard, this has ensured that the finest line of the raised and frosted design is clear and prominent against the mirror bright background of the coin. Both are subject to very low issue limits with just 250 gold and only 2 500 silver coins for worldwide distribution. To avoid the disappointment of being unable to complete their collection, you are advised to order early for this final edition.

**With Compliments from the Royal Mint**

For collectors who have purchased all the other coins in the Parish Series the Royal Mint has purchased an illustrated booklet featuring the coins, and a brief history of each of the twelve parishes of Jersey. You will receive your complementary copy with your final coin.

Dear Mr Green,

## Parish Series Coins

I commend you on your proposal to produce a leaflet covering all twelve issues in a Parish Emblem Series. I have read through the text and find it factual. One or two minor errors have been marked.

I would be grateful if you would forward me a copy of the finished leaflet in due course.

Your printer proof is enclosed.

PARISH SERIES COINS

I am enclosing for your information a printers proof of a leaflet which we are proposing to send to regular purchasers of the Parish Series Coins. There will actually be two versions of the leaflet, one for the gold collection and one for the silver collection. The text is mainly drawn from information which you have provided for each issue. However, it would be most helpful if you could kindly quickly go through it again and let me have any comments.

Yours sincerely

# THE JERSEY PARISH SERIES

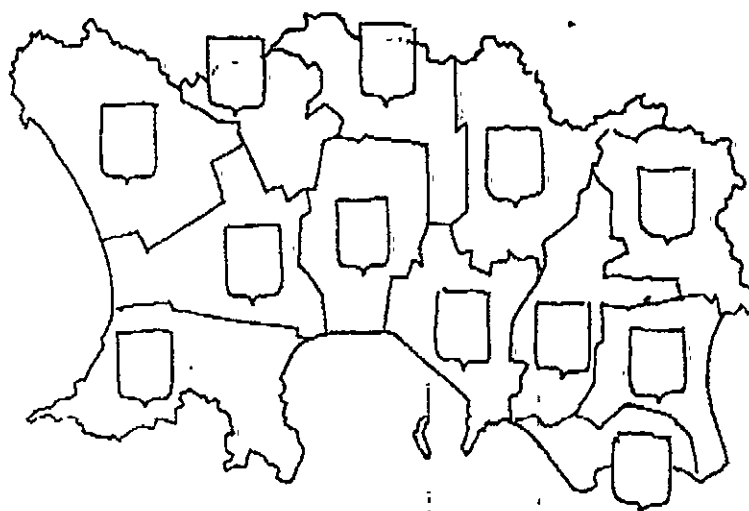

*Gold and Silver Proof  
One Pound Coin Collection*

*Royal Mint*

# JERSEY

*Situated in the English Channel one hundred miles south of Portland Bill, Jersey has been closely linked with the English Crown since the Norman Conquest of 1066. Appropriately, in 1983, the Royal Mint was commissioned to strike a series of reverse designs for the Island's new one pound coin. The designs depict the emblems representing the twelve parishes of Jersey. The coins were issued according to the size of population of each of the parishes, whose origins and customs can be traced back to the 11th century. Jersey is the largest of the Channel Islands measuring some 45 square miles. The Capital, St. Helier is ranked as an important centre of international finance and banking. The Island has its own Parliament and Law Courts, the former being one of the oldest legislative assemblies in the Commonwealth.*

## The Obverse

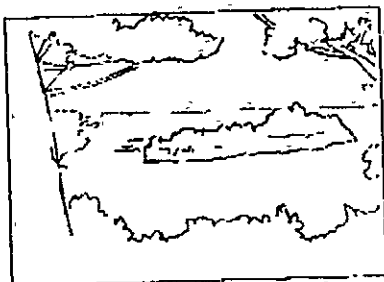

**T**he shared obverse of this charming series features the famous Arnold Machin's portrait of Her Majesty Queen Elizabeth II, introduced in 1968. The new designs also carry an edge inscription "CAESAREA INSULA" a name given to the Island by the Roman Antonius in 300 AD meaning "Island of Jersey".

Each coin is specially struck in 22 carat gold, weighs 19.65 grammes and measures 22.50 mm in diameter and produced to the Royal Mints highest Proof standard.

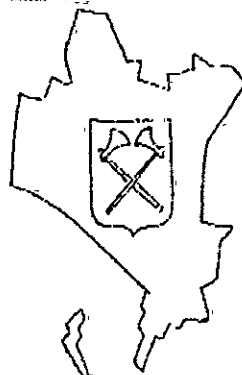

Each coin is specially struck in sterling (.925) silver, weighs 11.68 grammes and measures 22.50 mm in diameter and struck to the Royal Mints highest Proof standard.

## The Parish of St. Helier

Elizabeth Castle  
St. Helier

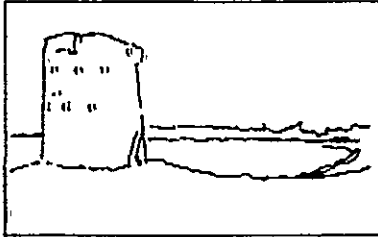

**T**he emblem of St. Helier was the first design to be featured in the series and depicts two golden axes crossed on a blue background. It is thought to be dated between 1053-1066

St. Helier, the thriving Capital of Jersey has a variety of contrasts. The bustling harbour is a fascination in itself, yacht mariners nestle near the busy ferries, which use constantly in

use. Elizabeth Castle lies to the west of the harbour built on a small islet. The castle played a part in the English civil war providing a refuge for Prince Charles the future Charles II who was in exile on the island. The central market ablaze with flowers, the long stretch of sandy beach at St. Aubins Bay combine to make St. Helier a capital full of interest and variety.

## The Parish of St. Clement

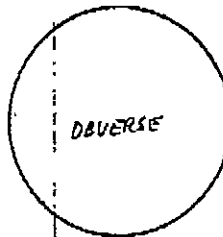

St. Clement's Bay

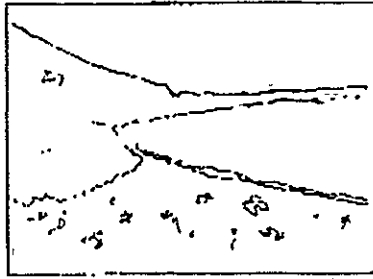

**T**he emblem representing St. Clement (Saint Clement de Pierreville) depicts an anchor within a shield. The design is derived from the legend that St. Clement, now regarded as the protector of sailors was tied to an anchor and thrown into the Crimean Sea. The emblem is thought to be dated between 1053-1066.

1. Clement has a large sandy coastline with many rock formations providing an excellent area for exploration of sea life. Green Island, a large grass covered rock known historically as La Motte, was once an ancient burial site, eighteen cist-graves (box-shaped graves made from stone slabs or a hollowed tree trunk) were discovered here.

## The Parish of Trinity

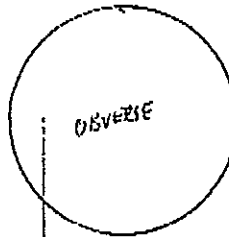

Bouley Bay  
Trinity

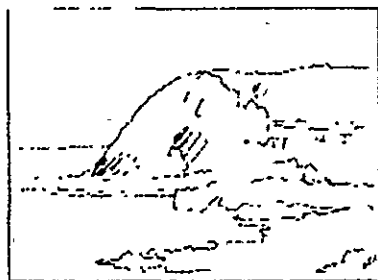

The emblem representing Trinity (La Sainte Trinite) has a curious and unusual design. The large initials displayed on the emblem stand for Pater, Filius, Spiritus Sanctus and Deus. The emblem dates back to AD 1090.

Trinity is a large but sparsely populated parish and home of

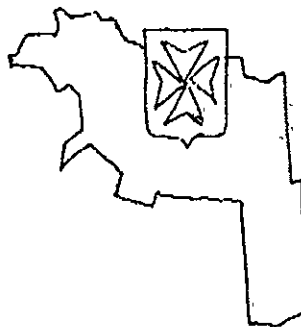

Jersey Zoo and Wildlife Preservation Trust. The Trust was founded by Gerald Durrell, author, broadcaster and naturalist. The Trust is situated at Les Augres Manor. Along the rich and varied coastline is the picturesque and tranquil Bouley Bay a small beach and fishing harbour.

## The Parish of St. John

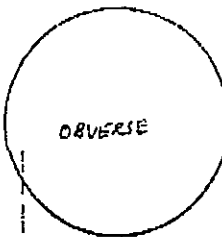

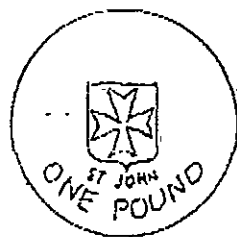

Bonne Nuit Bay  
St John

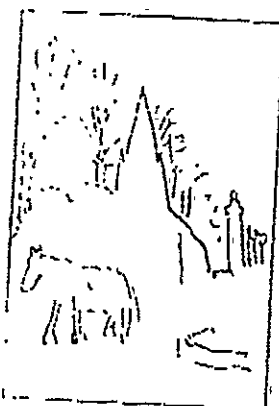

**T**he emblem of St. John (St. Jean des Chenes) is featured in the form of a silver cross of the knights of St. John of Jerusalem and has a green background. It dates back to AD 1090.

The coastline of St. John extends from Le Mourier Valley to Giffard Bay, each the northernmost point of the island is an excellent headland from which to see the

dramatic coastline, with views extending to Guernsey, Sark, Herm and the coast of France. Every Jersey parish must have by medieval tradition an outlet to the sea. Bonne Nuit Bay provides St. John with its sea access. This picturesque harbour surrounded by towering green and heather covered cliffs was built in 1872.

# The Parish of St. Mary

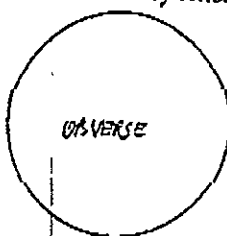

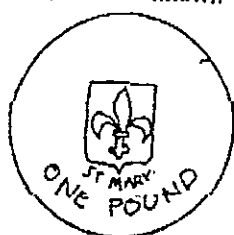

St. Mary's Church

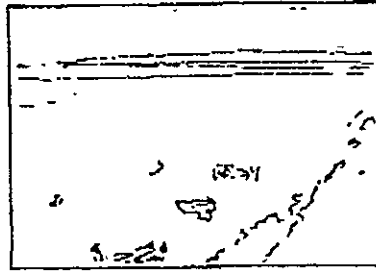

The emblem of St. Mary (St. Marie d'Aismoustier) depicts a silver lily on a blue background and dates back to AD 1042

The Parish of St. Mary boasts much natural beauty. The deep wooded valley of Creux de Lecq runs from St. Mary's church to the sea. Devils hole (its correct name being Creux de Vis) is a well known

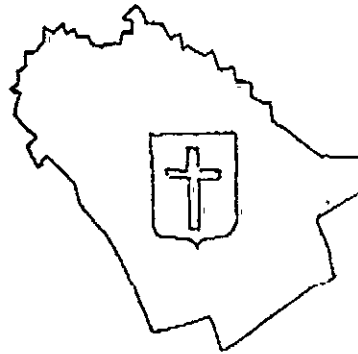

beauty spot. Measuring 90-100 feet in diameter the cave gives a dramatic display of the sea being forced through a narrow inlet. In earlier times, when knitting was a local industry much of the land in the parish was given over to sheep rearing. Those days have long gone and the accent today is on dairy and arable farming and the cultivation of vines.

## The Parish of St. Ouen

St. Ouen's Bay

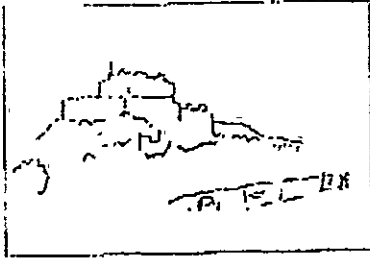

**T**he emblem of St. Ouen features a cross of gold on a blue background and dates back to AD 1053.

The parish of St. Ouen is the largest of the twelve parishes and occupies the north west corner of the island. The Parish shares with St. Peter and St. Brélade the magnificent bay of St Ouen which

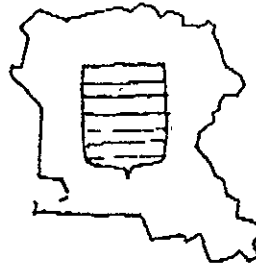

alone spans the entire west coast of the island. At the northern end of the bay the landscape changes rapidly and the plateau of Grosnez with its gullies and cliffs are a fitting background for the 200 foot pinnacle rock. St. Ouen also houses the museum of the famous Battle of the Flowers.

## The Parish of St. Martin

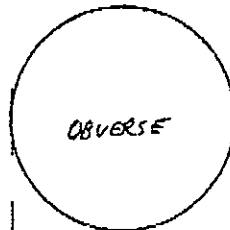

Mont Orgueil Castle  
St. Martin

**T**he emblem of St. Martin (Saint Martin-Le Vieux) dated AD 1042 features seven alternate silver and red horizontal bands.

St. Martin situated east of the island is a quiet and rural area of natural unspoilt beauty. Mont Orgueil (Mount Pride) Castle dominating the picturesque harbour of Gorey since the 13th

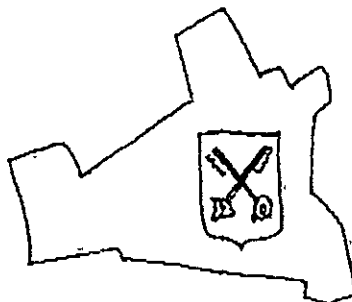

century, must be the most prominent feature of this little bay, and is a fine relic of great historic interest. The parish church of St. Martin is thought to be the oldest centre of worship on the island. North of the Parish is Rozel Bay a small harbour primarily used for lobster fishing.

## The Parish of St. Peter

*Le Moulin de Quetivel  
St. Peter*

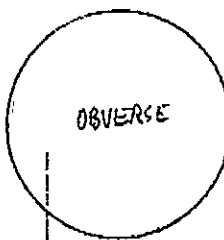

**T**he emblem representing the Parish of St. Peter (Saint Pierre dans le Desert) is thought to be dated between 1053-1066.

The emblem depicts two crossed keys representing the keys of heaven in the charge of St. Peter.

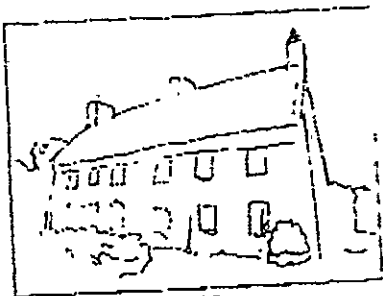

The Parish of St. Peter is situated in the west of the island and is unique in many ways. It is the only parish which has two coastlines —

one partly in St. Aubin's Bay and the other partly in St. Owen's Bay.

In 1937 Jersey's technically advanced airport was opened at St. Peter. Today it is one of the busiest airports in the British Isles. "Le Moulin de Quetivel" is a lasting reminder of an era in Jersey's history when flour milling was a local occupation.

# The Parish of St. Lawrence

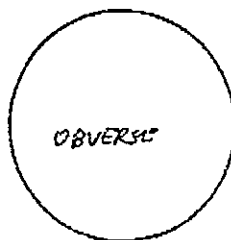

Morel Farm  
St. Lawrence

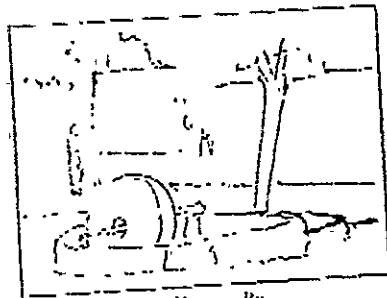

**T**he emblem of St. Lawrence, (Saint Laurent) features a black gridiron on a silver background dating back to AD 1090.

St. Lawrence is the centre parish of Jersey, with reservoirs sup-planting the mills of bygone times which ground the islands corn. Situated in St. Lawrence is the German underground hospital

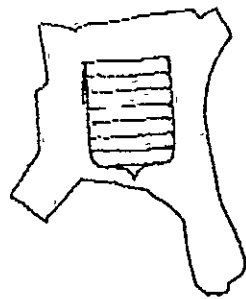

a reminder of occupation days in St. Peter's valley. The parish of St. Lawrence combines the old and the new, St. Mathews church is a good example of modern architecture, whilst Morel Farm maintained by the Jersey National Trust is an example of an old Jersey granite farmhouse, restored complete with its cobbled courtyard and granite archway.

# The Parish of Grouville

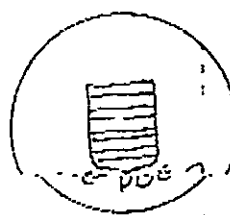

Le Hougue Ru  
Grouville

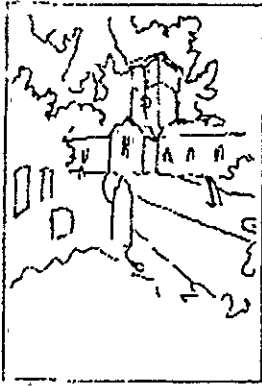

The emblem representing the Parish of Grouville depicts eight alternate silver and red horizontal bands within a shield and is thought to be dated between 1053-1066.

Grouville boasts one of the islands most historic finds within its borders. La Hougue Bie, discovered during a dig by the

société Jersaise in 1924 is one of the finest neolithic tombs in western Europe. The mound is surmounted by two medieval chapels and is of particular interest to geologists and archaeologists. Situated in the parish is the attractive fishing harbour of Le Rocque where the French invasion of 1781 took place.

## The Parish of St. Saviour

St. Saviour's Church

The emblem representing the Parish of St. Saviour (Saint Sauveur de l'Épine) is thought to be dated between 1006-1087.

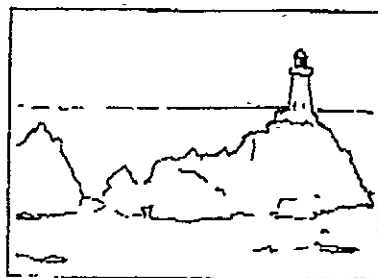

The design features a golden crown of thorns encircling three nails on a red background.

The Parish of St. Saviour is famous for the fact that Lillie Langtry, the "Jersey Lily"

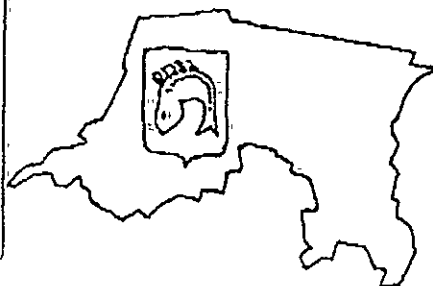

is buried in the parish churchyard. Her father the Rev. William Le Broton was Dean of Jersey. St. Saviour is also home of Her Majesty's representative the Lt Governor of Jersey. It has the smallest coastline of all the parishes, touching the sea at Le Port de la Chapelle.

## The Parish of St. Brelade

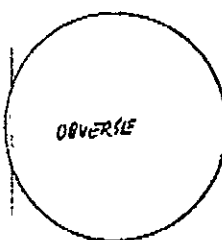

La Corbiere Lighthouse  
St. Brelade

The emblem of St. Brelade depicts a fish on a blue background and is thought to be dated between 1053-1066.

St. Brelade is guarded at its southern extremity by the bold finger of La Corbiere lighthouse, built over one hundred years ago on an outcrop of granite to guide mariners safely round the south

west tip of the island. The fisherman's chapel situated in St. Brelades Bay is an outstanding example of early church architecture. Though a rocky headland divides Quasine and St. Brelade's Bays, at low water they become one expanse of golden sand.

## The Jersey 'St Mary' One Pound Coin

The final coin in a truly remarkable series.

Collectors of the beautiful series of Jersey £1 coins will be especially delighted with the arrival of the final coin because it marks the end of six years of fascinating Jersey £1 coin issues. Fascinating because each coin represents one of the islands' twelve parishes which date back to the tenth and eleventh centuries.

Each parish has its own emblem which consists of a shield with a central design peculiar to that parish. In the case of St Mary the emblem is a silver lily on a blue shield and this lovely design has been faithfully reproduced on the reverse of the Jersey St Mary £1 coin dated 1989.

*Arnold Machin's*

The obverse features Raphael Maklouf's portrait of Her Majesty The Queen. The edge lettering reads Caesarea Insula which translates 'Island of Jersey' and is the Latin name for Jersey given by the Roman Antonius in 300 AD.

### The Island of Jersey

For more than 900 years the States of Jersey have been dependencies of the British Crown. Situated 100 miles to the south of the United Kingdom, the island of Jersey lies only a few miles from France and by its character is greatly influenced by its closeness to the Continent and its strong association with Britain - an association further embraced when Jersey adopted Britain's "round pound".

### 22 Karat Gold and Sterling Silver Proofs

This exquisite coin is struck to a frosted proof standard in two beautiful metals; resplendent 22 karat gold and lustrous sterling silver. Both gold and silver coins, however, are available in very limited numbers only.

### Strict Worldwide Issue Limits

Of the gold proof, only 250 coins will be available for worldwide distribution and of the silver proof only 2,500 will be issued. So collectors, particularly those who have been fortunate enough to secure the first eleven coins should place their orders for this twelfth and final coin in the series without delay.

Dear Mr Le Marquand

ST MARY PROOF COINS

Thank you for your letter dated 2 February accepting our proposals for your last Parish coin.

I am now enclosing a pre-production sample of the silver proof version for your approval. We trust that you are entirely satisfied with the reproduction of the design into metal and also with the standard of the piece. If so, we would be grateful to have your authority to continue with bulk production of the batch for Royal Mint marketing.

I confirm that the usual photographs will be provided following your approval of the sample piece.

Yours sincerely

## ST MARY PROOF COINS

Thank you for your letter of the 26th instant. The unit price (CIF Jersey) is acceptable. In due course I shall ask you to purchase the gold bullion for which payment will be made immediately.

I can confirm that there will be no changes in the retail or bulk order prices and that your requirement of Gold Proof 50 and Silver Proof 1050 is approved. I shall forward the pouches and leaflets for gold and silver nearer the issue date. The presentation cases will be delivered to Mr J Parker direct from the manufacturers.

Yours sincerely

Dear Mr Le Marquand

ST MARY PROOF COINS

As requested in your letter dated 17 January, I am writing with our quotation for the supply of the final gold and silver proof coins in your Parish Emblem series.

Prices

Our prices for the supply of coins to frosted proof standard are as follows:-

<u>Alloy</u>	<u>Weight (gms)</u>	<u>Assumed Quantity</u>	<u>Unit Price</u> <u>CIF Jersey</u>
			<del>£</del>
925 Silver	11.68	2,000	6.00
916.7 Gold	19.65	150	24.00

These prices are exclusive of costs of bullion, and they are based on the assumed total production quantity. Prices are subject to review in the event that total quantities vary significantly either way.

Bullion

Prices assume that gold bullion will be purchased by the Royal Mint on confirmation of your order. The purchase will be made on the next official fixing in London following receipt of order, and we will telex full details of the purchase, for repayment within 48 hours by telegraphic transfer to the Master of the Mint Account at the Bank of England. The total cost of bullion will include a brokerage charge of 1/4%, which is standard on such transactions. Based on the current bullion price of £230 per ounce, the indicative cost of bullion per piece is £133.20.

Bullion for the silver coins will be taken from silver bullion which we are currently holding on your behalf.

Packaging

Our prices assume packaging in acrylic capsules only.

Master Tools

The charge for master tools will be included in our separate quotation for base metal coins of circulation standard.

Delivery

Coins will be available for despatch within one month from the later of your approving sample pieces or confirming order quantities.

Terms of Payment

Our prices assume payment for costs of manufacture and delivery within one month from receipt of invoice.

Royal Mint Marketing

We confirm that the Royal Mint wishes to sell your St Mary proof coins on your behalf under the existing arrangements, whereby we pay you royalties on each coin sold at the rate of 10% in respect of gold proofs and 12.5% in respect of silver proofs.

Our initial requirements for St Mary coins will be as follows:-

Coins

Gold Proof - 250  
Silver Proof - 1050

Packaging

Gold Coins - 50 pouches and leaflets  
Silver Coins - 650 presentation cases plus leaflets

We trust that this allocation is acceptable. Would you also kindly confirm that the existing retail prices of £300 for gold proofs and £16.96 for silver proofs will be maintained, together with the structure for bulk orders.

I will be writing separately with our quotation for circulation standard coins dated 1989.

Yours sincerely

P J S Green

### THE PARISH OF ST MARY

The £1 coin featuring the emblem of the Parish of St Mary is the final coin in a series of twelve which commenced in 1983.

The emblem - St Marie d'Arsmoustier ("of the Burnt Monastery") is dated AD 1042 and is a silver lily on a blue background.

Although St Mary is the second smallest parish and the least populated area in Jersey it boasts much natural beauty. Superb views are enjoyed by walkers who take the cliff path from Sorel through Le Mourier Valley and on to Devils Hole whilst those who look for alternative relaxation can enjoy the splendid beach at Greve de Lecq where the sands are truly golden and the sea of the deepest blue.

Also at Greve de Lecq are the Barracks which were built to house garrison troops when the French threatened to invade the Island at the beginning of the 19th century. These buildings, now restored, are the property of the National Trust for Jersey and are open to the public.

The Trust also has its headquarters at The Elms, St Mary, a fine example of an 18th century dwelling house and subsidiary farm house.

In earlier times, when knitting was a local industry much of the land in the Parish was given over to sheep rearing. Those days have long gone and the accent today is on dairy and arable farming and the cultivation of vines.

ST MARY £1 COIN

I am sorry for the delay in responding to your letter dated 25 July about the design of your St Mary £1 coin.

As requested, our artist has been asked to give further attention to the alignment of the inscription, and photographs of the modified plaster model are enclosed for your attention. We trust that the revised alignment meets with your approval and that we may have your authority to continue with the production of master tools for the last coin in your Parish series.

JERSEY £1 ST JOHN COINS - order 751

The customer has confirmed his order for the following coins:

Gold proof - 86

Silver proof - 1000

Bullion

The customer will be returning 19 St Helier gold proofs, which are surplus to requirements. Gold bullion for the balance should be purchased and I would be grateful to receive details as soon as possible. The cost of gold bullion will be reimbursed by the States Treasury within 48 hours by telegraphic transfer.

Bullion from the Silver Coins

9768.28 after order amendments

Is to come from the 9771.76 ounces which is currently held on behalf of the States Treasury. Will Mr Roberts please confirm the bullion content of the new order and the balance of silver bullion then remaining.

Delivery

The coins are required for early despatch to fulfill orders already placed in Jersey, and we propose indicating that the order will be available for despatch by mid-November.

Despatch

Will Mr Parker kindly authorise the release of coins to Jersey immediately they become available. Will Mr Fitzpatrick then please make arrangements for the consignment to be despatched, air freight, to Jersey.

## The Jersey St John One Pound Coin

The Jersey Parish Emblem series of twelve legal tender £1 coins continues with the issue of the St John one pound coin.

This penultimate issue features on its reverse the emblem of Saint Jean des Chenes which, when coloured, depicts the silver cross of the Knights of St John of Jerusalem on a green background.

The obverse continues to feature Arnold Machin's renowned portrait of Her Majesty Queen Elizabeth II and the milled edge of the coin bears the distinctive inscription CAESAREA INSULE the Latin name for Jersey given by the Roman Antonius in 300 AD.

## The Parish of St John

The earliest mention of St John's Church is 1150 and like all old Jersey churches it has been added to over the years. Now some 800 years later it remains a focal point in the Parish.

Whilst the parishes of Jersey date from the 10th and 11th centuries, the parish emblems are of recent origin - for they were designed in 1921 for the visit of King George V and Queen Mary.

## Strictly Limited Issue

Like all the coins in this unique series, the St John one pound coin is subject to the strictest issue limits with just 250 of the 22 karat gold proofs and only 2500 of the sterling silver proofs available for worldwide distribution.

The combination of beautiful designs, the high quality of the frosted proof finish and the fact that each coin is part of a remarkable collection of twelve has made this series extremely popular indeed. And this is evidenced by the fact that some of the parish issues have completely sold-out. So avoid disappointment and place your order now.

THE PARISH OF ST JOHN

FALS  
MRS G HICKMAN  
MARKETING

The Parish Emblem series of twelve £1 coins commenced with St Helier in 1983. This is the penultimate issue and it features the emblem of St John.

The emblem - St Jean des Chenes - is in the form of a silver cross of the Knights of St John of Jerusalem on a green background. It is dated AD 1090.

The Parish of St John is in the northern part of the Island and no parish has a more attractive coastline. It extends from Le Mourier Valley to Giffard Bay and cliff paths recently created through a States funded work scheme have opened areas to the public that were previously inaccessible. Sorel, the northernmost point of the Island, is an excellent headland from which to see the dramatic coastline with views extending to Guernsey, Sark, Herm and the coast of France. Alderney, way to the north, can also be seen in particularly ideal conditions.

The prime bay is Bonne Nuit. This attractive and popular bay is a haven for visitors providing a sheltered sun trap surrounded by cliffs some 400 feet high. In bygone days Bonne Nuit was a favourite haunt for smugglers but today its harbour, built in 1872, is used mainly for fishing boats and pleasure craft.

Many of the farm buildings and country houses have been built in quality pink granite hewn from the now extinct quarry at Mont Mado. Ronez, the major quarry operating today is also in the Parish of St John.

As with other country parishes, agriculture and dairy farming are prominent industries in a community that also boasts a fine recreation centre for the enjoyment and benefit of the residents of St John.

The earliest mention of St John's Church is 1150 and like all old Jersey churches it has been added to over the years. Now some 800 years later it remains a focal point in the Parish.

Dear Mr Le Marquand

ST JOHN £1 PROOF COINS

I am writing to request the following initial allocation of these coins:

Gold proof -	50
Silver proof -	1050

We should also like to receive the following packaging:

Gold coins -	55 pouches and leaflets
Silver coins -	800 presentation cases plus 850 leaflets.

I trust that this allocation is acceptable, and that it will be possible for us to receive packaging by the end of September.

As was explained, we were unable to complete pre-production trials on the proof versions of these coins prior to our annual shutdown period. They are now scheduled for early next week and we have noted that you require photographs for your promotional material not later than Friday, 19 August.

Yours sincerely

JERSEY - ORDER 751

The customer has complained about unacceptable delays with samples of proof £1 St John coins, which were promised by the shutdown. (My memo dated 20 June refers). I understand that we were unable to complete trials prior to the shutdown and I would be grateful if they could be accorded all possible priority when work resumes on 15 August. The customer's first priority is now to have photographs of the new design, for use in his promotion material. Photographs are required in Jersey by Friday 19 August. In view of the delay I have undertaken to meet this date.

Would you kindly arrange to make a proof silver or gold coin available to the photographer at the earliest opportunity. In order to save time, I suggest that photographs be despatched direct from Llantrisant, by data post, to the following address:-

MARY  
JERSEY ST ~~J~~ DESIGN

I am afraid that the customer is not entirely satisfied with the lettering "ST. MARY". He compares the new lettering with that on the "ST. MARTIN" design and believes that the letters MAR are askew.

Photographs of the plaster model, together with those of the St Martin coin are enclosed herewith for reference. I would be grateful to know that you understand this criticism and can make the necessary amendment.

Dear Mr Green,

## St. Mary £1 Coin

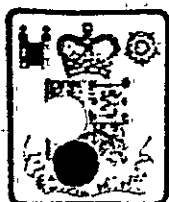

Thank you for submitting a photograph of the relief plaster model of the final £1 coin - St. Mary.

I am not entirely satisfied with the lettering ST. MARY. If you compare the latest model with the photograph of St. Martin I think you will see the difference to which I refer - the MAR looks askew.

Kindly discuss the matter with the designer.

Yours sincerely,

## JERSEY CONTINUES ITS PARISH SERIES OF £1 COINS

In April 1983, the island of Jersey issued the first in a remarkable series of twelve legal tender frosted proof £1 coins. Available in both 22 karat gold and Sterling Silver, these beautiful coins have been a source of great pride and enjoyment for numismatists throughout the world.

## TRINITY - JERSEY'S TENTH £1 COIN

The tenth coin in this series features on its reverse, the emblem of the parish of Trinity, a ~~large~~ but sparsely populated parish with a rich and varied coastline.

The emblem dates back to AD1090 and is an ancient design conveying in diagrammatic form the mystery of the Trinity. The large initials stand for Pater, Filius Spiritus Sanctus and Deus respectively. When coloured, the design is silver on a green background.

The obverse continues to portray the world renowned effigy of Her Majesty Queen Elizabeth II by Arnold Machin and around the milled edge of the coin is the very distinctive latin inscription CAESAREA INSULA which translates 'island of Jersey'.

## ATTRACTIVE ISSUE LIMITS

One of the many attractive features of this delightful coin is the very low issue limits of both the gold and silver proof versions. Only 250 of the gold proofs and 2500 of the silver proofs will ever be available for worldwide distribution. Allocations for North America are, because of worldwide demand, very limited and with sell-outs already experienced on some coins of the series, it is advisable to order without delay to avoid disappointment.

## THE PARISH OF ST JOHN

The Parish Emblem series of twelve £1 coins commenced with St Helier in 1983. This is the penultimate issue and it features the emblem of St John.

The emblem - St Jean des Chenes - is in the form of a silver cross of the Knights of St John of Jerusalem on a green background. It is dated AD 1090.

The Parish of St John is in the northern part of the Island and no parish has a more attractive coastline. It extends from Le Mourier Valley to Giffard Bay and cliff paths recently created through a States funded work scheme have opened areas to the public that were previously inaccessible. Sorel, the northernmost point of the Island, is an excellent headland from which to see the dramatic coastline with views extending to Guernsey, Sark, Herm and the coast of France. Alderney, way to the north, can also be seen in particularly ideal conditions.

The prime bay is Bonne Nuit. This attractive and popular bay is a haven for visitors providing a sheltered sun trap surrounded by cliffs some 400 feet high. In bygone days Bonne Nuit was a favourite haunt for smugglers but today its harbour, built in 1872, is used mainly for fishing boats and pleasure craft.

Many of the farm buildings and country houses have been built in quality pink granite hewn from the now extinct quarry at Mont Mado. Ronez, the major quarry operating today is also in the Parish of St John.

As with other country parishes, agriculture and dairy farming are prominent industries in a community that also boasts a fine recreation centre for the enjoyment and benefit of the residents of St John.

The earliest mention of St John's Church is 1150 and like all old Jersey churches it has been added to over the years. Now some 800 years later it remains a focal point in the Parish.

NINTH JERSEY POUND - THE PARISH OF ST. OVEN

The British Royal Mint has announced that the ninth in the ongoing series of twelve Jersey (1 coins is now available to North American collectors. Representing the Parish of St. Owen the proof coins are struck in extremely limited mintages of only 250 in 22 karat gold and 2500 in .925 sterling silver.

The coins of this popular and historic series each represent one of the Channel Island of Jersey's twelve Parishes and are issued in turn, in descending order of population. The first coin issued in April, 1983 featured the emblem of the Parish of St. Helier, while subsequent issues have featured the Parishes of St. Saviour, St. Brelade, St. Clement, St. Lawrence, St. Peter, Grouville and most recently the Parish of St. Martin.

The Bailiwick of Jersey, the largest of the Channel Islands, is situated only 15 from the coast of France, and has an area of 45 extremely picturesque square with beautiful beaches and a climate that woo's holiday-makers from Britain and Europe, making tourism together with agriculture the Island's main industries.

There is evidence that Neand thal caveman lived on Jersey over 100,000 years ago and the Island boasts some of the finest examples of neolithic burial chambers in Western Europe (circa. 2500 B.C.). The Roman occupation lasted for about 500 years from 58 B.C. By about the sixth century the Channel Islands appear to have become Christianized; indeed one martyr lost his head to a Saxon axe, gaining immortality in the process by giving his name to Jersey's capital city, St. Helier.

Jersey's connection with Britain goes back to the time of the Norman Conquest of 1066 when the Channel Islands were part of the Duchy of Normandy. The Islands have been loyal to the Crown of England ever since that time, despite the efforts of France to capture them through several centuries (the last occasion as recently as 1781), and the occupation by the Germans from 1940-45. Jersey has its own Parliament, "The States of Jersey," which ranks among the oldest legislative assemblies in the British Commonwealth. Enactments passed by the States require the sanction of the Queen in Council.

The Parish of St. Owen is situated on Jersey's north western corner and is the largest of the twelve Parishes\*\*. [checking] The reverse design of the Jersey 1987 St. Owen Pound depicts the Parish emblem, a cross set upon a shield - a gold cross set upon a blue ground when seen in color. The inscription above and below the shield reads: PARISH OF ST. OVEN and is surrounded by the words BAILLIWICK OF JERSEY and the value ONE POUND.

Like the preceeding coins in the series, the obverse design bears the attractive Arnold Machin portrait of Her Majesty Queen Elizabeth II with the inscription: QUEEN ELIZABETH THE SECOND and the date 1987.

The distinctive edge inscription reads: CAESAREA INSULA, the Latin name given to Jersey by the Roman Antonius in 300 AD. Interestingly the name survived and was used on some early coins issued in New Jersey (USA) in the form: Nova Caesarea. The Jersey (1 coin has a diameter of 22.50 mm. The weight of the gold proof is 19.65 grams and the silver proof 11.68 grams. Both gold and silver coins are struck to an extremely high standard of frosted proof finish and are attractively presented in their own luxurious presentation case.

Prices for the 1987 St. Owen One Pound Coin are:

Gold Proof	\$485.00 (US)	<sup>646.00</sup> <del>\$650.00</del> (CAN)
Silver Proof	\$ 31.00 (US)	<sup>41.25</sup> <del>\$42.00</del> (CAN)

Or... and inquiries should be addressed to the British Royal Mint, c/o Barclays Bank of New York, N.A., P.O. Box 2570, New York, NY 10164-1060, or by calling toll-free 800-221-1215 (9-5 EST), except New York residents (add tax please) 718-204-2400. Dealers contact Kaller Associates, Inc., P.O. THE PARISH OF TRINITY

The emblem of the Parish of Trinity provides the feature for the tenth £1 coin to be issued in this series.

The emblem - La Sainte Trinite - dates back to AD 1090. It is an unusual design and shows, in diagrammatical form, the mystery of the Trinity. The initials inset in the design represent Pater, Filius, Spiritus Sanctus and Deus.

Trinity is a large but sparsely populated parish with a coastline running from the northern end of Rozel Bay through to Giffard Bay. A fairly strenuous walk along the coastal paths provides superb views as well as the opportunity to explore caves dotted along the rugged coast. These paths skirt the highest point in the Island - Les Platons - which is some 534 feet above sea level. Radio, television and some navigational aids are positioned in this area.

Bouley Bay is a major attraction. This picturesque little bay nestling between high cliffs is reached by a steep winding hill now famous as a National Hill Climb venue. The bay, which shelves rapidly, is recognised by visitors and residents alike as an ideal centre for skin diving pursuits.

Conservation plays a major part in Island life, and Jersey is fortunate that under the inspired leadership of Gerald Durrell, zoologist and author, the Jersey Wildlife Preservation Trust at Les Augres Manor has gone from strength to strength. The Trust aims to preserve all forms of wildlife which are in danger of extinction and it has achieved many successes.

The States of Jersey Agriculture and Fisheries Committee has its headquarters at the Howard Davis Farm and a comprehensive agricultural and horticultural advisory and research service is provided for the benefit of the industry. The farm was donated to the Island by the late T B Davis in memory of his son who was killed in World War 1.

There are many other features to be seen and enjoyed in the Parish of Trinity - the Parish Church, Trinity Manor and common land at Le Jardin d'Olivet are just examples of what awaits the explorer.

Dear Mr Le Marquand

1988 Parish Coins

Thank you for your letter dated 11 January confirming arrangements for the manufacture and sale of Trinity and St John proof coins.

We note that you are able to retain the existing price structure. We agree that this course of action is much to be preferred as price increases during ~~sales~~ collections of this type are likely to attract adverse comment and could well depress overall demand. We have also taken note of your discount structure and we will be adopting a similar approach.

Our initial requirements for Trinity coins will be as follows:

Coins Gold Proof - 65  
Silver Proof - 1050

Packaging Gold Coins - 65 pouches and leaflets  
Silver Coins - 800 cases plus leaflets

I trust that this allocation is acceptable.

I <sup>will</sup> ~~will~~ be writing separately with prices for your order for 10000 circulation standard coins of each type.

Yours sincerely

## JERSEY PARISH COINS

Further to your memo of 13 January, I confirm that the selling prices and discounts, as indicated, are acceptable. Mr Parker has already confirmed the Marketing order for coins and packaging material. I note that the subscription list for the Trinity coins will be open during period 8 April - 16 May and we will probably promote, by letter, to previous collectors in early-mid April and include products in the May Bulletin. I note, also, for the next issue - the St John coins - the issue list will open between 19 September and 17 October and this product will be promoted to previous collectors towards the end of September and will be included in the pre-Christmas Bulletin.

Dear Mr. Green,

## 1988 Parish Proof Coins

I thank you for your letter of the 7th instant and provide the information requested.

### Price

The unit prices (CIF Jersey) for the manufacturing of the gold (£24) and silver versions (£6) are acceptable.

### Bullion

The gold bullion for the orders received in Jersey will be provided by sending the equivalent number of St. Helier £1 gold coins. In due course I will ask you to purchase the appropriate quantity of silver for which you will be repaid upon receipt of your telex detailing the costs.

### Master Tools

Kindly accept this as an order to manufacture 10,000 standard circulation coins of each Parish - Trinity and St. John. The costs of master tools to be charged accordingly. An order for circulation coins of other denominations will follow in due course.

### Royal Mint Marketing

The existing arrangements are acceptable. Your efforts in promoting sales of Jersey coins is much appreciated.

### Timetable

Trinity Subject to your agreement it is proposed to open the order list from 18th April to 16th May with an issue date during the week commencing 13th June.

St. John The pattern remains the same. Order list dates 19th September to 17th October with an issue date during the week commencing 14th November.

I do not have a third issue to contend with in 1988 and, therefore, the opportunity has been taken to bring forward these issues slightly.

Prices

With only three issues out of twelve to be released, I would like to maintain the retail price structure. Please comment upon this approach if you feel it is not the correct one.

The structure would be:-

**Silver Proof    Retail - £17**

Dealers	1 - 4	£17
"	5 - 99	£15
"	100 +	£14

**Gold Proof    Retail £300**

Dealers	1 - 20	£270
"	21 +	£250

Do not hesitate to contact me if further details are required.

Yours sincerely,

  
F. H. LE MARQUAND

Jersey Parish Coins

The customer has confirmed arrangements for selling gold proof and silver proof coins in the coming year. There will be two issues, Trinity and St John. The customer's subscription list for Trinity coins will be open during the period 8 April to 16 May and for St John coins between 19 September and 17 October.

The existing retail prices of £17 for silver proof and £300 for gold proof will be retained, and the customer's proposed discount structure is as follows:

<u>Silver Proof</u>	Between 1 and 4	£17.00
	" 5 and 99	£15.00
	100 or more	£14.00
<u>Gold Proof</u>	Between 1 and 20	£270.00
	21 or more	£250.00

These prices apply to dealer sales only.

Please let me have any comments on the proposed pricing structure as soon as possible. Will you also please confirm your order for Trinity coins and for packaging.

Regards

Dear Mr Le Marquand

## 1988 PARIS SERIES PROOF COINS

Thank you for your letter dated 29 December instructing that we proceed with the preparation of master tools for the £1 Trinity coin. Work is now being programmed and we anticipate letting you have sample pieces for approval towards the end of February.

As promised, I am now following up with our quotation for proof versions of £1 coins for manufacture during 1988.

Price Our prices for coins of frosted proof standard are as follows:

<u>Alloy</u>	<u>Weight (gms)</u>	<u>Assumed Qty per Design</u>	<u>Unit Price CIF Jersey</u> £
925 silver	11.68	2000	6.00
916.7 gold	19.65	100	24.00

These prices are exclusive of bullion, and they are based on assumed total production orders for each design. Prices are subject to review in the event that total quantities vary significantly either way.

Bullion Prices assume that bullion for coins for Jersey sales will be made available at the time of order. Bullion can be purchased by the Royal Mint if required. The purchase will be made on the next official fixing in London following receipt of order, and we will telex you full details of the purchase, for repayment within forty-eight hours by telegraphic transfer to the Master of the Mint Account at the Bank of England. The total cost of bullion will include a brokerage charge of one quarter per cent, which is standard on such transactions.

Packaging Our prices assume packaging in acrylic capsules only.

Master Tools It is assumed that there will also be a requirement for coins of normal circulation standard, which will bear the cost of master tools.

Delivery Coins will be available for despatch within one month from the letter of approval of sample pieces or confirmation of order quantities.

Terms of Payment Our prices assume payment for costs of manufacture and delivery within one month from receipt of invoice.

Royal Mint Marketing We confirm that the Royal Mint wishes to continue to sell these coins on your behalf under the existing arrangements whereby we pay you royalties on each coin sold of 10% in respect of gold proofs and 12.5% in respect of silver proofs.

We would be grateful to have your timetable for selling the Trinity coins as soon as possible, in order that it may be slotted in to our own marketing schedule. In due course, we will also need confirmation of your retail prices for the coming year.

Yours sincerely

P J S Green

The plaster model prepared by Llantrisant engravers for the reverse of the £1 Trinity coin is approved and you may proceed with the preparation of master tools. The obverse will be the existing machin design redated to 1988.

Will you please let me know when sample pieces may be anticipated.

An order form covering preparation of master tools will follow shortly.
