Copper Coin.

— For some time past copper money had been so scarce in the island as to be a premium, and the want of small change has been universally complained of. We are glad to say that the long promised supply of new coinage has at last reached the island, having arrived by the "Esk" on Monday. The coin can be had on application to the States' Treasurer.

Paper Currency.

— We learn that the notes issued by the "Town and Parish of St. Helier," and which were payable Messrs. Voisin & Co., will henceforth be cashed by Mr. Philip Le Cras, Huissier of the Royal Court.
